

The power app for collecting ideas from your organization

More efficiency with idea management

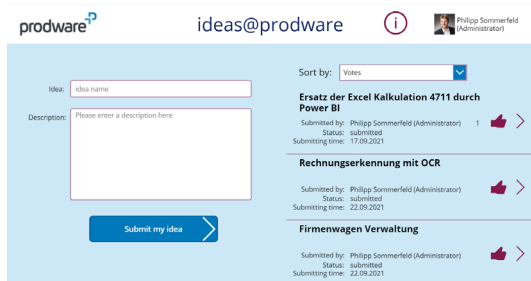

Are you sure that you know and exploit the idea potential of your employees? In companies, idea, knowledge and innovation management is an important key to future success, because a lived culture of ideas creates trust and higher identification with the respective company goals.

Ideas@Prodware App

“Ideas@Prodware” is an application for collecting ideas from your company.

Implemented as a Power App and based on SharePoint, our application is very easy to use. You only need Microsoft 365 subscriptions for your users and our free Power App.

List view

You can choose the name of your app “Ideas@YourCompany” (free of charge).

If required, we can integrate your company’s CI into the Power App. The Power App can of course also be adapted to your specific requirements (e.g. forwarding and approval functions). *

*Individual adjustments may be subject to a charge

Mobile and desktop

The “Ideas@Prodware” Power App provides your employees with a platform in which they can intuitively record all types of ideas and suggestions for improvement via mobile devices or on the desktop PC. All ideas are clearly listed and can be commented on and rated by all employees in the company (like function).

Comment and like function

Would you also like to benefit from the ideas of your employees and be inspired? We are happy to support you with the leading Microsoft Power Apps and Microsoft 365 technologies.
